

Discovery

Focusing on the curation of community resources and educational materials surrounding historical trauma and the issues arising from it

RESEARCH QUESTION:

What are the major challenges or issues in our community, and what untapped strengths or resources can be deployed to help?

POPULATION SURVEYED

Adults

COMMUNITY APP FAIRBANKS AREA

The “Discovery Group” comprised of all women living in Fairbanks are creating an app that lists community resources, educational material around historical trauma and the issues that stem from that. They plan to hold an annual community resource discussion/collaboration as a way to maintain relevancy.

COMMUNITY OF FOCUS

FAIRBANKS, AK
POPULATION: 32,193

Because many of the group members work within a health setting, they wanted to create a useful mechanism for their clients to access various resources.

One demographic group that members wanted to reach, in particular, was homeless youth, as many of them have cell phones but no access to the internet. With the app, they can access information at their fingertips.
